

Syntax Manufacturing Solutions for SAP

Build resilient production, smarter operations, and data driven growth

Supply chain disruptions, shifting customer demands, margin pressures, and legacy system restrictions are confounding manufacturers today. **Syntax Manufacturing Solutions for SAP** bring deep industry expertise and innovative tools to help manufacturers manage end-to-end operations with confidence. From ERP implementation and cloud migration to AI-powered analytics, automation, and quality control, we help you optimize production, strengthen resilience, and drive measurable growth in a fast-changing market.

Challenges

Manufacturing is evolving fast. Are you ready?

Manufacturing today demands speed, adaptability, and seamless execution in a sea of constant change. Market shifts, geopolitical disruptions, operational inefficiencies, and lack of data visibility across the enterprise put every process under pressure—making modernization and informed decision-making more critical than ever.

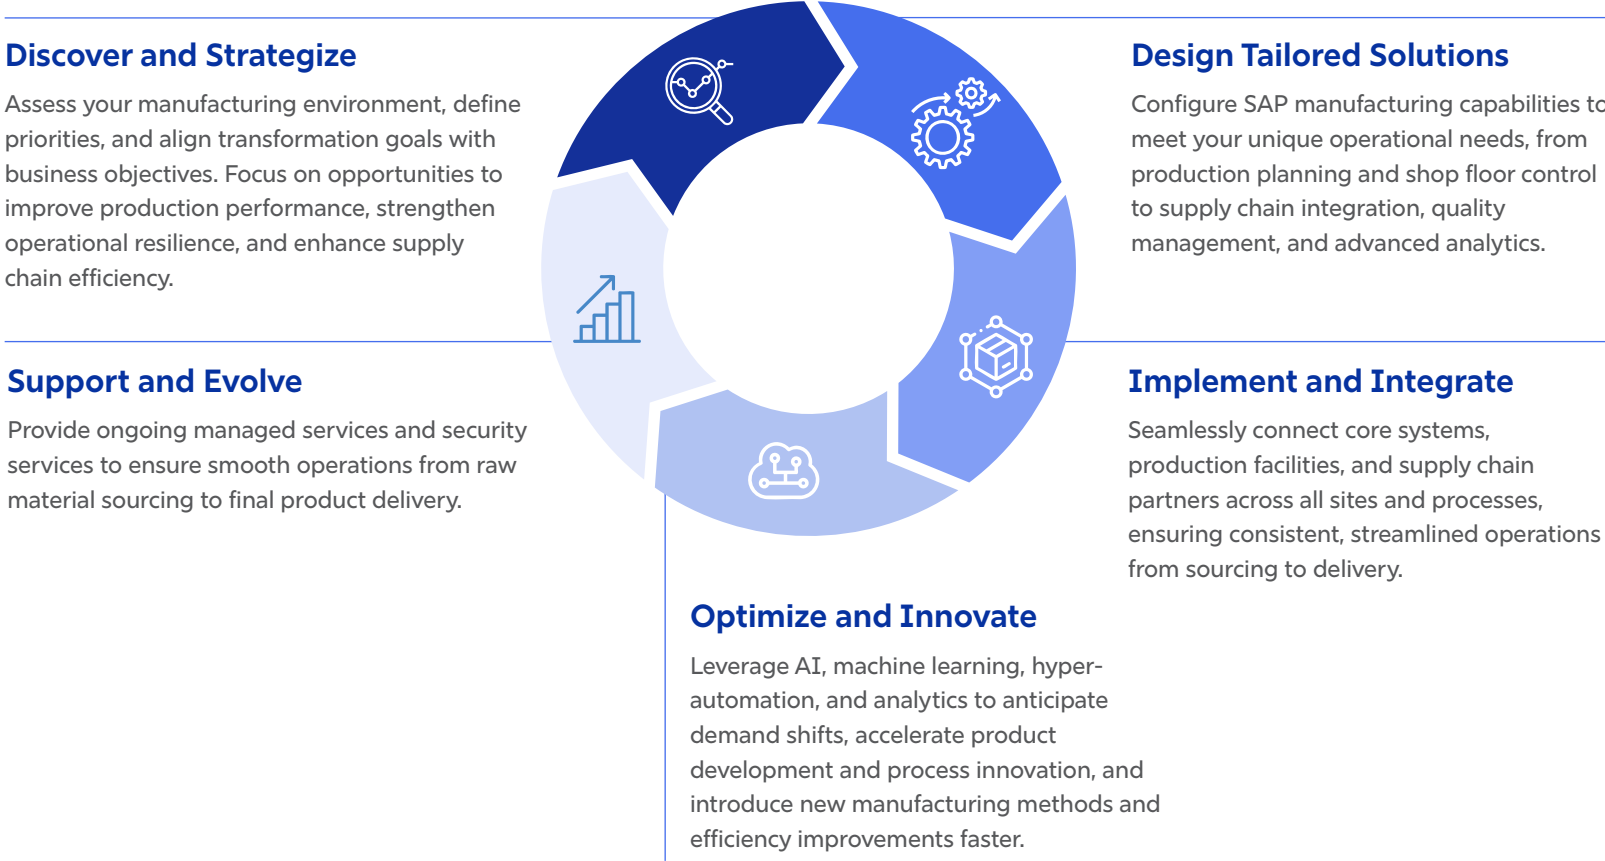

Supply Chain Disruptions	Rising Costs and Margin Pressures	Sustainability and Regulatory Compliance
Geopolitical tensions, raw material shortages, and logistical bottlenecks lead to delays, increased costs, and uncertainty.	Inflationary pressures on materials, energy, and labor driving the need for cost optimization and efficiency improvements.	Increasing pressure to meet ESG goals, reduce carbon footprint, and comply with evolving environmental regulations.
Evolving Customer Behavior and Demands	Data Silos and Lack of Real-Time Visibility	Digital Transformation and Technology Adoption
Shifting market expectations toward faster delivery times, customization, and high product quality.	Fragmented data across operations hindering strategic decision-making and performance optimization.	The challenge of modernizing legacy systems, integrating IoT, AI, and automation while ensuring ROI and minimizing disruption.

The Syntax Approach

Your partner for intelligent manufacturing transformation.

Syntax guides manufacturers from vision to value with end-to-end services, including strategic advisory, tailored solutions, seamless implementation, and ongoing optimization and managed support. Our approach is powered by deep manufacturing expertise, SAP best practices, and AI-driven innovation for measurable business impact.

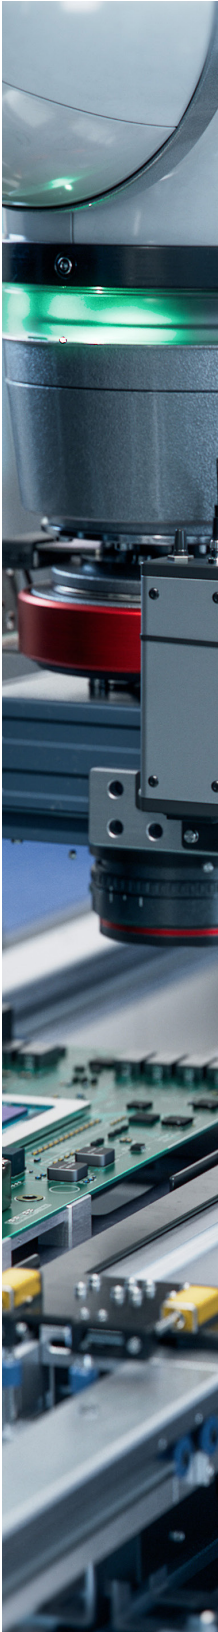

What Do You Need? Tailored Solutions for Manufacturing

Comprehensive capabilities for every manufacturing function

From production and supply chain to procurement, finance, and HR, Syntax provides tailored solutions for SAP manufacturing software—with the tools, processes, and insights you need to manage your end-to-end operations and drive growth across your enterprise.

Accelerate Manufacturing Success in the Cloud

Get there faster, with less risk, and proven results

Syntax Accelerators give you a head start by delivering preconfigured solutions to help you adopt SAP Cloud ERP and SAP Digital Manufacturing faster and with less risk. Each accelerator includes ready-to-use applications, proven business processes, and industry best practices to simplify implementation and deliver real-time visibility from day one. We work with you to design, implement, and optimize systems that streamline operations, unify data, and fuel innovation.

Syntax Accelerator for SAP Cloud ERP	Syntax Accelerator for SAP Digital Manufacturing
A modern, manufacturing-specific ERP in the cloud	Connecting shop floor to top floor
<ul style="list-style-type: none">▪ Holistic transformation experience with a simplified engagement model.▪ Includes hundreds of preconfigured manufacturing processes for finance, planning, supply chain, procurement, production, smart manufacturing, and more.▪ Available in tailored packages — Foundational, Enhanced, Differentiated.▪ Enriched with added manufacturing solution accelerators, developments, and innovations.	<ul style="list-style-type: none">▪ Seamless integration with SAP S/4HANA Cloud (SAP Cloud ERP) and IoT real time shop floor data visibility.▪ Rapid deployment with preconfigured business processes, extensions, and predefined modules.▪ Ready to deploy templates for sub industries like battery manufacturing, injection molding, and assembly units.▪ Add-on Syntax IPs like Visual Inspection (AI-enabled computer vision process) and Syntain (end-to-end process automation for plant maintenance).

Manufacturing Transformation, Powered by Syntax

Delivering the edge you need to lead.

► Boutique @ Scale

Personalized service combined with enterprise grade capabilities, backed by 2,600+ experts in 15 countries to modernize and scale with confidence.

► Deep Manufacturing Expertise

Over 30 years of experience working with manufacturing companies and 45+ years of SAP experience.

► Innovation Built-In

GenAI, predictive analytics, and sustainability-focused solutions embedded in every layer to drive intelligence and continuous improvement.

► Faster Time-to-Value

Manufacturing accelerators that reduce costs and accelerate timelines with industry-specific processes and workflows.

► End-to-End Partnership

Strategic advisory through managed services, delivering measurable results and long-term success.

Let's turn your manufacturing vision into reality.

About Syntax

Syntax provides comprehensive technology solutions and trusted professional, advisory, and application management services to power businesses' mission-critical applications in the cloud. With 50+ years of experience and 900+ customers around the world, Syntax has deep expertise in implementing and managing multi-ERP deployments in secure private, public, or hybrid environments. Syntax partners with SAP and other global technology leaders to ensure customers' applications are seamless, secure, and at the forefront of enterprise technology innovation.
