

Syntax OCI Cloud Workload Accelerator

Unlock Unmatched Performance and Cost Savings with Oracle Cloud Infrastructure

The Pursuit of Cloud Platform Services Excellence Has Never Been Easy – Until NOW

When it comes to defining the top cloud providers in the market, you have to consider how each provider obscures complexity and delivers on advanced capabilities that power the enterprise without compromise. Oracle tops the list when it comes to providing the ultimate flexibility to align the right workload to the right cloud platform, be it IaaS, PaaS and/or SaaS services.

At the foundation, the Oracle Cloud Services portfolio strategy is the Oracle Cloud Infrastructure (OCI), which is a comprehensive suite of globally-available cloud services enabling enterprises to build and run a wide range of applications and services in a highly secure, scalable, and high-performance environment.

Oracle has created one of the most comprehensive, easy to consume cloud services catalog, which encompasses not only infrastructure but also databases, business applications, data management, security and SaaS applications, supporting public, private, and hybrid cloud models. This holistic approach ensures that enterprises can leverage the full spectrum of cloud capabilities to drive innovation and business growth.

Accelerate from Current State to Future State with Syntax

Current State

- ✓ Lack of visibility in cloud cost control
- ✓ Cloud skill gaps
- ✓ Operational tool complexity
- ✓ Inability to keep pace with innovation
- ✓ Slow time-to-value realization
- ✓ Uncomfortable technical debt

Future State

- ✓ Modernize your datacenter exit strategy
- ✓ Modernize Enterprise Applications with market-leading PaaS and SaaS services
- ✓ Obtain continuous access to innovation with Oracle's rapid release of functionality
- ✓ Single-Source Support for Cloud, ERP and advanced Application Support Services

17

Oracle is a leader in 17 Gartner Magic Quadrants covering Strategic Cloud Platforms.

Why Customers Choose Oracle Cloud and Syntax Managed Services

Best Price Performance Economics

Run everything faster—from AI to new or existing apps—for up to 50% less.

Comprehensive Global Cloud Services

Run in our global network or in your data center without compromise.

Most Powerful AI Infrastructure

Four of the largest LLMs run on OCI, can scale up to 65,000 GPU cluster.

Security Designed for Top Secret Agencies

Over 80 security and compliance standards made available to all customers.

Your Platform for AI Innovation

Services to leverage all your data—including on-prem—with modern AppDev capabilities.

Unlock Unmatched Performance and Cost Savings with OCI

Get Started Today

Leverage the Syntax OCI Cloud Workload Accelerator to modernize your cloud journey. Take advantage of our comprehensive package and migration incentives.

Why Engage Syntax?

- Cloud Advisory Workload Migration Plan (datacenter exit aligned)
- Accelerator OCI credits (SMSP Program)
- Free workload architecture assessment
- Architectural design workshop
- OCI Tenancy, Compartment, Identity Domain Security Access Setup
- White-glove Knowledge transfer sessions
- Oracle University training plan (training packs/ voucher from Oracle U.)
- Syntax License Advisory included for Oracle EBS application & Technology stack for support optimization
- Best practices landing zone deployment
- Access to Oracle Cloud Engineering
- Level 1-3 OCI support
- Earn OCI Support Rewards through Syntax

Up to \$50k Acceleration funding available from Syntax for qualified projects - conditions apply.

The **Syntax OCI Cloud Workload Accelerator** is designed to drive immediate value across your workload from **DAY 1 AND DAY 2** support needs.

Contact Syntax today and unlock rapid mastery and seamless OCI experience with **Syntax OCI Cloud Workload Accelerator**.
