

Syntax Digital Mine for SAP GROW Fast

Accelerate your junior mining-ready SAP
Cloud ERP deployment while reducing
complexity and administrative burden.

- Ensure faster delivery through a standardized best-practice approach
- Get started quickly and scale easily with prebuilt templates and processes
- Maintain consistent processes for compliance and governance

Overview

As emerging mining companies begin exploration, advancing mineral projects and expanding operations across different regions, they face increasing operational management challenges—often with limited or no existing IT systems to support them. During this early phase of the mineral development cycle, organizations must establish scalable business processes, financial controls, and operational visibility while preparing for future project development and growth.

By removing traditional cost barriers and implementation complexity, SAP Cloud ERP enables junior miners to establish a strong digital foundation and scale their IT infrastructure in parallel with business growth. The challenge is getting there quickly and cost-effectively, and that's where Syntax comes in.

Syntax Digital Mine for SAP GROW Fast is a purpose-built solution accelerator that enables rapid, standardized SAP Cloud ERP implementation specifically tailored for junior miners.

Benefits

- **Clear Starting Point:** Pre-defined cloud ERP scope based on mining industry best practices
- **Accelerated Go-Live:** Advanced tools, templates, and methodologies enable companies to go-live in weeks, not months
- **Reduced Implementation Risk:** Pre-configured solutions and standardized processes minimize technical and business risks
- **Proven Methodologies:** Battle-tested delivery approaches optimize timelines and quality outcomes

Result: Junior mining companies achieve enterprise-class ERP capabilities affordably and rapidly with the opportunity to scale.

Syntax Packages

Get Started with Foundational	Expand with Add-On
Implement standard SAP Best Practices with Syntax IP included ▪ Prescribed Solution, Fit-to-Standard approach ▪ Standard process delivered through DDA scope items identified only, no integration, no custom development except very light modifications on standard forms (logo) Applicable for 1 Operational Site, 1 Country (1 language), 1 Headquarter – setting up a strong ERP foundation.
