

Syntax Mobile Field Data Capture

Quick, accurate project reporting through a mobile app regardless of connectivity status and other site-related issues

- Enhance site visibility and accelerate approvals
- Enable timely project course corrections
- Make better business decisions

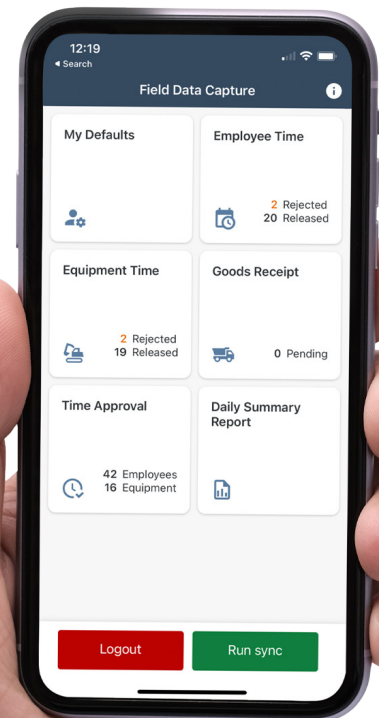

Overview

Working on a construction site makes it difficult to maintain accurate, up-to-date project reports. Paper-based field documentation can lead to delays, missing records, and errors in translation.

Syntax Mobile Field Data Capture is a user-friendly mobile application designed to ensure quick and accurate project reporting, even in challenging site conditions or without connectivity. It allows you to capture labor, expenses, equipment, material, and informal field notes directly from field resources, enabling timely project course corrections. With Mobile Field Data Capture, your company can enhance site visibility, streamline collaboration, speed up approvals, and make better business decisions.

Features

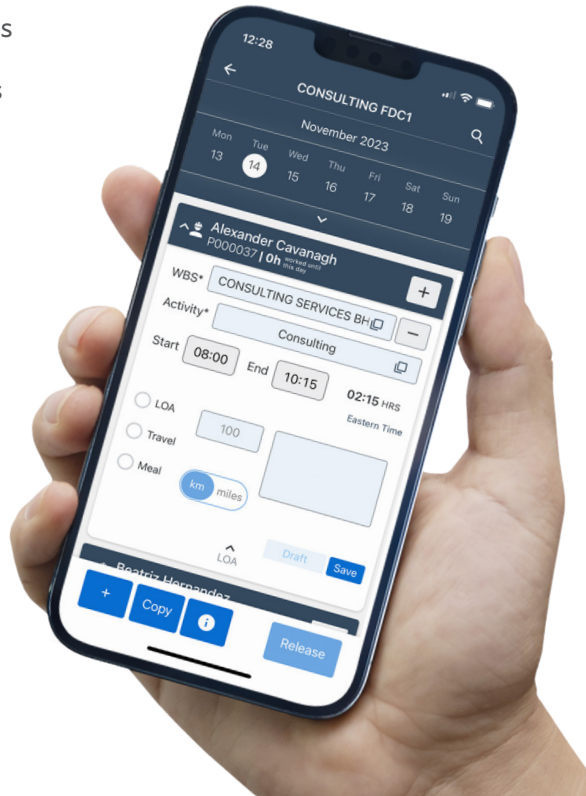

- Provides a fully native mobile solution for project-based field resources (iOS and Android)
- Retains functionality in challenging site conditions with limited or no connectivity
- Simplifies and accelerates data reporting efficiency through foreman-customizable user experience
- Enables field and back-office approval processes
- Allows the capture of project notes by the foreman through AI speech-to-text capabilities
- Offers predefined, purpose-built data entry templates

Syntax Systems is a member of United VARs, which is an SAP Platinum partner

Benefits

- Facilitates daily capture of labor, expenses, equipment, material, and informal field notes, enabling timely project course corrections
- Reduces administrative burden on foremen and project managers so they can focus on value-adding activities
- Simplifies training and enablement for field personnel, reducing investment and improving user satisfaction
- Systematizes the recording of project activity, removing reliance on paper-based tracking methods and enabling timely analysis, historical reporting, and event mining
- Enables project managers, supervisors, payroll personnel, and customer representatives to review and approve project labor, equipment, and material (LEM) costs

Why Syntax

Syntax provides comprehensive technology solutions and trusted professional, advisory, and application management services to power businesses' mission-critical applications in the cloud. With 50 years of experience and 900+ customers around the world, Syntax has deep expertise in implementing and managing multi-ERP deployments in secure private, public, or hybrid environments. Syntax partners with SAP and other global technology leaders to ensure customers' applications are seamless, secure, and at the forefront of enterprise technology innovation.
